the uninstallation. For further information, see the "Malicious Software Removal Tool" Microsoft document at the following location: -----

----- \*The following example describes how to uninstall Fingerprint Manager Pro with or without assistance from MBAM. However, it is recommended that you use MBAM.\* 1. Open a web browser and navigate to the following Microsoft web page: 2. Click the Download Windows 10 app link from the Start menu. 3. Type Fingerprint Manager Pro in the search box and click the result. 4. Click the Download (for Windows 10) or the Download for other devices link (if applicable) in the top right corner of the page to start the download. 5. The file download may begin automatically, which means that you are downloading a compressed file. 6. When the download has completed, click or tap the file to open it. 7. Follow the instructions on the screen. 8. Make sure you check the box that allows you to uninstall Fingerprint Manager Pro (if applicable). 9. Click or tap OK. 10. If prompted, restart your computer and enter your product key to activate Windows. 11. Follow the instructions on the screen to complete the installation. 12. Exit the installation program and follow the instructions on the screen. 13 82157476af
